

# INTERFACE PROJECT NEWSLETTER

INTERFACE Project: Project Conclusion Newsletter

As we reflect on the journey we've embarked on together, we are thrilled to announce the successful conclusion of the INTERFACE Project. Over the past [duration of the project], our consortium of dedicated partners has worked tirelessly to develop innovative solutions aimed at advancing vocational education and training (VET) across Europe.

## CELEBRATING THE INTERFACE PROJECT RESULTS

Throughout the project, we have achieved significant milestones and made invaluable contributions to the field of VET. From the development of cutting-edge educational resources to the establishment of dynamic learning communities, our collective efforts have left a lasting impact on education and training practices across the continent.

## THANK YOU!

*On behalf of the INTERFACE consortium, we extend our heartfelt thanks to everyone who has been a part of this remarkable journey. Your passion, expertise, and collaboration have been instrumental in shaping the future of VET in Europe and beyond.*

# KEY HIGHLIGHTS OF THE INTERFACE PROJECT

- **In-Service Training Programme:** Our comprehensive in-service training programme equipped VET professionals with the digital pedagogic skills and tools necessary to thrive in online learning environments. Led by University Paderborn and supported by other consortium members, this initiative has empowered educators to deliver high-quality and engaging learning experiences to learners of all backgrounds.
- **Interactive Infographics:** The creation of our Interactive Infographics has revolutionized the way transversal skills are taught and learned. Developed in collaboration with Spectrum Research Centre CLG and other partners, these visually captivating resources have provided learners with immersive and interactive learning experiences, fostering the development of essential skills such as digital literacy, critical thinking, and teamwork.
- **Community of Practice:** Our vibrant Community of Practice (CoP) served as a hub for knowledge exchange, collaboration, and professional development. Led by CARDET, the CoP brought together VET professionals, stakeholders, and experts from across Europe, facilitating meaningful interactions and fostering a culture of lifelong learning.
- **MOOC Platform:** The INTERFACE MOOC platform served as a central repository of educational resources, accessible to learners and educators alike. Developed by CARDET and supported by our consortium partners, the MOOC platform provided free and open access to a wealth of learning materials, empowering individuals to enhance their skills and knowledge at their own pace and convenience.

## STAY CONNECTED!

WHILE THE INTERFACE PROJECT MAY HAVE CONCLUDED, OUR COMMITMENT TO ADVANCING EDUCATION AND TRAINING REMAINS UNWAVERING. WE INVITE YOU TO STAY CONNECTED WITH US AND EXPLORE THE LEGACY OF OUR PROJECT THROUGH OUR WEBSITE AND SOCIAL MEDIA CHANNELS.

THANK YOU ONCE AGAIN FOR YOUR INVALUABLE SUPPORT AND PARTICIPATION.
