Tools to support the assessment of transversal skills

Self-assessment tools: These tools allow competence holders to assess their own skills and knowledge against a set of criteria. Self-assessment tools can be useful for providing a starting point for further assessment and identifying areas for improvement.

Standardised tests and assessments: These tools use standardised measures and procedures to assess skills in a particular area.

Tools to support the assessment of transversal skills

Performance assessments: These tools are used to assess skills by observing the competence holder when performing a task or job. Performance assessments can be useful for evaluating practical skills and knowledge in a real-world context.

Portfolios: Portfolios are collections of evidence that demonstrate the holder's skills and knowledge. Portfolios can include work samples, certifications, and other documentation, and can be useful for providing a comprehensive view of the holder's competences.

Tools to support the assessment of transversal skills

Peer evaluations: Peer evaluations involve the assessment of competence by colleagues or other professionals in the same field. Peer evaluations can provide valuable feedback and insights into the holder's skills from a different perspective.

Interviews: Interviews can be used to assess competence through the questioning of the competence holder on their knowledge, skills, and experience. Interviews can be useful for evaluating transversal skills as well as knowledge and expertise.

Analising transversal skills based on evidence

1. Define the skill: Clearly define the skill you want to analyse, including specific behaviours that demonstrate the skill.
2. Collect evidence: Gather evidence that demonstrates the person's competence in the defined skill. Evidence can come from a variety of sources, such as performance evaluations, self-assessments, work samples, and feedback from supervisors or colleagues.
3. Evaluate the evidence: Analyse the evidence you have collected to determine the person's level of competence in the defined skill. Look for patterns and trends in the data that suggest strengths and weaknesses.

4. **Identify gaps:** Identify any gaps in the evidence or areas where more information is needed to fully evaluate the person's skill.
5. **Draw conclusions:** Based on the evidence you have collected and evaluated, draw conclusions about the person's overall competence in the defined skill.

7. **Plan for development:** Use the conclusions you have drawn to create a plan for developing the person's competence in the defined skill area. Identify specific actions and resources that can be used to support their development and set goals for improvement.

- You have 60 minutes to complete this activity.
- At the end of this activity, you can share with the group the challenges you encountered during this activity, as well as the opportunities it provided for the recognition of skills.

1. List your transversal skills. You can list them using a table like the one below.

		How	When

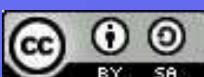

"The European Commission's support of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission can not be held responsible for any use which may be made of the information therein."

Activity

- a) For each of your skills, think about a time where you used that skill with positive results – why you used it, how you used it and what happened because of it.
 - Use positive, active verbs, e.g., coordinated, developed, delivered, etc.
 - Include quantifiable data where possible to support your evidence for a particular skill.
- b) If there are skills that you want to develop, consider a way in which to develop these skills and give yourself a deadline to do this. Ask yourself:
 - Which skills are my priority?
 - How can I get more experience in my preferred skills? Are there training opportunities? Who could help me develop this skill?
 - What is my timeframe to learn this new skill?

2. Review job descriptions from areas you might be interested in to help you explore and understand the skills required for different professions and industries.
 - You can highlight the essential and desirable skills or criteria from these job descriptions and generate a master list of skills. This exercise helps you identify your skills (technical, research, interpersonal), but also identify skills you might want to develop.

Tätigkeit

- a) Denken Sie bei jeder Ihrer Fähigkeiten an eine Situation, in der Sie diese Fähigkeit mit positiven Ergebnissen eingesetzt haben - warum Sie sie eingesetzt haben, wie Sie sie eingesetzt haben und was dadurch geschehen ist.
 - Verwenden Sie positive, aktive Verben, z. B. koordiniert, entwickelt, liefert usw.
 - Fügen Sie nach Möglichkeit quantifizierbare Daten hinzu, um Ihre Nachweise für eine bestimmte Fähigkeit zu belegen.
- b) Wenn es Fähigkeiten gibt, die Sie entwickeln möchten, überlegen Sie sich, wie Sie diese Fähigkeiten entwickeln können, und setzen Sie sich eine Frist, um dies zu tun. Fragen Sie sich selbst:
 - Welche Fähigkeiten sind für mich vorrangig?
 - Wie kann ich mehr Erfahrung in meinen bevorzugten Fähigkeiten sammeln? Gibt es Ausbildungsmöglichkeiten? Wer könnte mir helfen, diese Fähigkeit zu entwickeln?
 - Wie viel Zeit habe ich, um diese neue Fähigkeit zu erlernen?

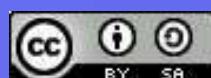

Tätigkeit

2. Schauen Sie sich Stellenbeschreibungen aus Bereichen an, die Sie interessieren könnten, damit Sie die für verschiedene Berufe und Branchen erforderlichen Fähigkeiten besser verstehen.
 - Sie können die wesentlichen und wünschenswerten Fähigkeiten oder Kriterien aus diesen Stellenbeschreibungen hervorheben und eine Gesamtliste der Fähigkeiten erstellen. Diese Übung hilft Ihnen, Ihre Fähigkeiten (fachlich, wissenschaftlich, zwischenmenschlich) zu erkennen, aber auch Fähigkeiten zu identifizieren, die Sie vielleicht entwickeln möchten.

1. Wymień swoje umiejętności przekrojowe. Możesz je wymienić, korzystając z tabeli takiej jak ta poniżej.

Umiejętność	Dowody umiejętności	Rozwój umiejętności	
		Jak	Kiedy

"The European Commission's support of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission can not be held responsible for any use which may be made of the information therein."

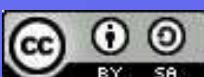

Aktywność

- a) Dla każdej ze swoich umiejętności, pomyśl o czasie, w którym użyłeś tej umiejętności z pozytywnym skutkiem - dlaczego jej użyłeś, jak jej użyłeś i co się dzięki temu stało.
 - Używaj pozytywnych, aktywnych czasowników, np. skoordynowany, opracowany, dostarczony itp.
 - Tam, gdzie to możliwe, dołącz dane ilościowe, aby poprzeć swoje dowody na konkretną umiejętność.
- b) Jeśli istnieją umiejętności, które chcesz rozwinąć, zastanów się, w jaki sposób możesz je rozwinąć i wyznacz sobie termin na ich realizację. Zadaj sobie pytanie:
 - Które umiejętności są dla mnie priorytetem?
 - Jak mogę zdobyć więcej doświadczenia w zakresie preferowanych umiejętności?Czy istnieją możliwości szkolenia? Kto mógłby pomóc mi rozwinąć tę umiejętność?
 - Jakie są moje ramy czasowe na opanowanie tej nowej umiejętności?

Aktywność

2. Zapoznaj się z opisami stanowisk w obszarach, które mogą Cię zainteresować, aby poznać i zrozumieć umiejętności wymagane w różnych zawodach i branżach.
 - Możesz podkreślić niezbędne i pożądane umiejętności lub kryteria z tych opisów stanowisk i wygenerować główną listę umiejętności. To ćwiczenie pomoże ci zidentyfikować twoje umiejętności (techniczne, badawcze, interpersonalne), ale także zidentyfikować umiejętności, które możesz chcieć rozwinąć.

- a) Για κάθε μια από τις δεξιότητές σας, σκεφτείτε μια φορά που χρησιμοποιήσατε τη συγκεκριμένη δεξιότητα με θετικά αποτελέσματα - γιατί τη χρησιμοποιήσατε, πώς τη χρησιμοποιήσατε και τι συνέβη χάρη σε αυτήν.
 - Χρησιμοποιήστε θετικά, ενεργητικά ρήματα, π.χ. συντονίζω, αναπτύσσω, παραδίδω κ.λπ.
 - Συμπεριλάβετε ποσοτικοποιήσιμα δεδομένα, όπου είναι δυνατόν, για να υποστηρίξετε τα αποδεικτικά σας στοιχεία για μια συγκεκριμένη δεξιότητα.
- b) Εάν υπάρχουν δεξιότητες που θέλετε να αναπτύξετε, σκεφτείτε έναν τρόπο με τον οποίο θα αναπτύξετε αυτές τις δεξιότητες και δώστε στον εαυτό σας μια προθεσμία για να το κάνετε αυτό. Αναρωτηθείτε:
 - Ποιες δεξιότητες είναι η προτεραιότητά μου;
 - Πώς μπορώ να αποκτήσω περισσότερη εμπειρία στις προτιμώμενες δεξιότητές μου;Υπάρχουν ευκαιρίες κατάρτισης; Ποιος θα μπορούσε να με βοηθήσει να αναπτύξω αυτή τη δεξιότητα;
 - Ποιο είναι το χρονοδιάγραμμά μου για να μάθω αυτή τη νέα δεξιότητα;

- a) Katrai savai prasmei padomājiet par laiku, kad izmantojāt šo prasmi ar pozitīviem rezultātiem — kāpēc jūs to izmantojāt, kā to izmantojāt un kas notika tās dēļ.
- Izmantojiet pozitīvus, aktīvus darbības vārdus, piemēram, saskaņoti, izstrādāti, piegādāti utt.
 - Ja iespējams, iekļaujiet kvantitatīvi nosakāmus datus, lai atbalstītu jūsu pierādījumus par konkrētu prasmi.
- a) Ja ir prasmes, kuras vēlaties attīstīt, apsveriet veidu, kā šīs prasmes attīstīt, un nosakiet sev termiņu, lai to paveiktu. Pajautājiet sev:
- Kuras prasmes ir manas prioritātes?
 - Kā es varu iegūt vairāk pieredzes manās vēlamajās prasmēs? Vai ir apmācības iespējas? Kas varētu man palīdzēt attīstīt šo prasmi?
 - Kāds ir mans laiks, lai apgūtu šo jauno prasmi?
